TECH SKILLS

- C++ with OOP
- Programming Fundamentals
- HTML, CSS, JS for Dev
- mySQL for Database
- Data Structures in C++
- AL based projects in Computer Architecture (CA)
- App Development with Kotlin
- Analysis of Algorithms in C++
- Digital Logic Designing
- Python in AI
- Bash Scripting
- NN based Implementations

PROFILE OVERVIEW

Currently pursuing a Bachelor of Science in Computer Science at Namal University, I'm building a strong foundation in Artificial Intelligence, Information Security, Computer Networks, Operating Systems, and Entrepreneurship in my 5th semester, and in my previous semesters, I have acquired a wide range of technical skills including Data Base, Computer Architecture, etc. In addition to my technical pursuits, I enjoy writing short blogs on Jetpack by WordPress, where I share insights on digital trends, productivity, and creative ideas. Beside this, I'm also an Off-Page SEO specialist passionate about boosting online visibility through guest posting, backlink strategies, and content writing & marketing. I'm eager in applying my professional and technical skills to real-world projects and want a continuous growth in both the technology and content space.

WORK EXPERIENCE

DEN Namal

JUL 2024 - PRESENT

Head of Marketing

- Led a team of content creators and digital marketers to execute high-ROI outreach campaigns.
- Spearheaded content writing strategies to increase domain authority.
- Coordinated cross-platform promotions and maintained consistent branding.

IEEE

JUN 2025 - PRESENT

Student Member

- Engaged in collaborative networking and knowledge-sharing with fellow student members and professionals through IEEE student branch activities and initiatives.

Jetpack by WordPress

JUL 2023 - PRESENT

Blogger

- Write concise, engaging blog posts on tech trends, digital productivity, and tutorials.
- Maintain a consistent tone and publish articles regularly using Jetpack CMS.
- Utilize tags and keyword-rich descriptions to boost organic reach.

IZOOF

AUG 2024 - JAN 2024

Outreach Specialist

- Built and managed partnerships with content websites for guest posts.
- Managed email campaigns targeting niche bloggers and influencers.
- Increased website traffic through strategic outreach and placement efforts.

DEV Weekends & ACM UET

JUN 2025 - SEP 2025

Student Learning Fellow

- Leet code problem solving, DSA analysis, Projects, and much more.
- Student learning, mentorship, and industrial-ready experience.
- Android Development with multi language

COURSES

- Programming Fundamentals
- Object Oriented Programming
- Information Communication Technology
- Digital Logic Design
- Discrete Structures
- Software Engineering
- Computer Organization & AL
- Data Structures
- Analysis of Algorithms
- Computer Architecture
- Data Base
- Theory of Automata

EDUCATION

- 2023 - 2027
NAMAL UNIVERSITY, MIANWALI
 - Bachelors of Computer Science
 - GPA: 3.0/ 4.0
- 2021 - 2023
PUNJAB COLLEGE, HASILPUR
 - Pre-Engineering (FSc)
 - Grade: A

PROFESSIONAL SKILLS

- Graphic Designing
- Video Editing
- Email Marketing
- Off-Page SEO
- Blogging
- Content Writing
- Social Media Marketing

LANGUAGES

- English (Fluent)
- Urdu (Fluent)
- Punjabi (Basics)
- Saraiki (Intermediate)

- Internship PakistanAUG 2025 - OCT 2025

Front-End Development Internee
 - Built responsive UI components using HTML, CSS, and JavaScript, focusing on clean layouts and usability.
 - Assisted in converting design mockups into functional web pages with mobile-first practices.
 - Collaborated with senior developers to debug UI issues and improve user experience.
- IEEE Namal Student BranchJUN 2025 - PRESENT

Publicity & Public Visibility Lead
 - Leading the publicity campaigns to enhance the branch’s online visibility and engagement across social platforms.
 - Designed promotional content and coordinated announcements for IEEE events and activities.
 - Working closely with the executive team to maintain consistent branding and outreach strategy.
- Namal Dramatics ClubOCT 2025 - PRESENT

Marketing Head
 - Managed marketing strategies to promote theatrical events and club initiatives within the university.
 - Designed posters, social media content, and announcements to increase event participation.
 - Coordinated with performers and organizers to align promotions with event timelines.
- AWS Namal Cloud ClubDEC 2025 - PRESENT

Core Member
 - Actively participated in cloud-focused workshops and learning sessions on AWS fundamentals.
 - Collaborated with peers to explore cloud computing concepts and real-world use cases.
 - Contributed to the club’s learning environment by engaging in discussions and activities.
- Aspire Leadership ProgramAUG 2025 - OCT 2025

Cohort 4 Attendee (Now Alumni)
 - Completed leadership training focused on personal growth, teamwork, and community impact.
 - Participated in structured discussions and activities to strengthen communication and leadership skills.
 - Engaged with a diverse cohort, building long-term professional and academic connections.
- IEEE DayJUL 2025 - PRESENT

Ambassador
 - Assisted in organizing and publicizing IEEE Day celebrations and related campaigns.
 - Acted as a liaison between students and the IEEE community to boost participation.

ACHIEVEMENTS

I have earned multiple professional certifications in areas such as AI fundamentals, business communication, WordPress development, and technical tooling, reflecting my commitment to continuous learning. Alongside certifications, I have successfully completed several impactful academic and technical projects, including a RISC-V single-cycle processor, a spam email detection system, and a lost-and-found mobile application. These achievements demonstrate my ability to apply theoretical computer science concepts to real-world problems while maintaining strong communication and project execution skills. Through consistent participation in technical programs and hands-on development, I continue to strengthen my technical expertise and professional growth.
